

Head / Cervical / Spinal

Helmets

The Ortho Europe Plastazote helmets are designed to provide protection to the forehead, crown and occipital regions.

Model I

Providing a high level of protection and comfort the lightweight Model I plastazote helmet offers

- A choice of strap fastening, single or Y
- Full quadrant or circular ventilation
- Available in Black, Red, Blue and White, other colours are available on request

Model II

Offering all the features of the Model I helmet but with the addition of a ABS outer shell for added strength and protection

Model I weight 230g

Model II weight 300g

Please follow the chart to build part number:

Part Number	Model I or II	Circ mm	Strap Y or Single	Ventilation Quadrant or Circular	Colour Black (BK), Red (Rd), Blue (Bl), White (W)
HM					

For example : HM/2/520/Y/C/Bl

Part Number / Model 2 / Size 520 / Y strap / Circular Ventilation / and Colour Blue

*For stock helmets a circumference measurement of the head around the upper part of the forehead and around the centre of the occipital bulge is satisfactory

For custom sized helmets please photocopy and complete a full Orthometry Chart
